

THEC' 2025

Transforming Higher Education For Future: Education 4.0

26 - 27 Sept 2025

Objective Of Conference

The objectives of the conference on "Transforming Higher Education for Future 4.0: Engineering Scenario" would typically focus on discussing, exploring, and advancing the implementation of Outcome based principles in educational systems. Additionally, it would focus on preparing institutions and students for Education 4.0 through technological advancements, interdisciplinary learning, and skill development. The following are the objectives of this conference:

1. Promote Understanding of OBEShare Best Practices

- To enhance awareness and understanding of the Outcome-Based Education framework, its principles, and acquaint educators, policymakers, and administrators to share successful strategies, practices, and case studies for implementing OBE in diverse educational settings.

2. Improve Teaching and Learning through Technology Integration:

- To explore ways in which OBE can help improve the quality of teaching and learning by focusing on student outcomes, ensuring alignment with program goals, and enhancing the assessment of student performance by exploiting the modern technology.

3. Curriculum Design and Development:

- To discuss effective curriculum design and development processes that align with the OBE approach, ensuring that all learning activities and assessments are directly linked to the intended outcomes.

4. Evaluation and Assessment Techniques:

- To examine various assessment tools and methods for evaluating student outcomes, ensuring that they are valid, reliable, and aligned with the stated learning objectives.

5. Address Challenges and Barriers:

- To identify and discuss challenges and barriers faced by institutions when transitioning to or implementing OBE, including resource constraints, resistance to change, or lack of faculty expertise.

6. International Collaboration:

- To encourage international collaboration and knowledge exchange among institutions that have adopted OBE, fostering cross-border partnerships and understanding.

7. Policy Recommendations:

- To provide recommendations to education policymakers on how to support and promote the adoption of OBE within national or regional education systems.
